Our solar cell is far more sensitive to the visible and non-visible light spectrum than conventionally constructed solar cells. SunCore, Intelligent solar charging for Smart Phones and tablets. Home

Son muchos los beneficios de la energía solar, ya que este tipo de energía, aunque no renovable, posee una gran capacidad. Cuando digo no renovable, me refiero a la existencia que tiene el sol, pues de ello depende el aprovechamiento de la energía solar. En diversas ocasiones, mencionan que se trata de una energía inagotable, pero no es así.

SunCore"s light-charging cell design derives energy from both visible and non-visible parts of the spectrum more efficiently, increasing performance and generating power even without direct sunlight.

SunCore has developed an array of products utilizing the power of light for charging personal electronic

devices, from smart phones and MP3/4 players to tablets, iPads and even laptops. ... Our portfolio now includes solar/wind powered street lights, power for telecom/Cell Towers and military and commercial communication systems. Home ; Contact ...
