Palau asecos battery cabinet

Are asecos Ion-line lithium cabinets safe?
Discover the asecos ION-LINE lithium cabinets for the safe storage and charging of lithium-ion batteries in a fire-protected environment. The ION-LINE cabinet models are specifically designed to meet the highest safety standards. They offer certified fire protectionwith a 90-minute fire resistance rating from the inside out and outside in.

What are the safety storage cabinets for lithium-ion batteries?
Safety storage cabinets for passive storage of lithium-ion batteries according to EN 14470-1 and EN 1363-1 with a fire resistance of 90 minutes (type 90) - fire protection from the outside-in. In addition, all models of the ION-LINE offer fire resistance for more than 90 minutes when exposed to fire from the inside-out.

How safe is the asecos Ion-line?
For the safe active and passive storage of lithium batteries,the asecos ION-LINE offers three different safety levels: CORE: Comprehensive fire protection with the proven asecos evacuation and alarm forwarding concept. PRO: Expanded protection when handling lithium-ion batteries with improved monitoring.
