Palau my energy libbi

Is Libbi a smart home battery storage system?
libbi isn't just a home battery storage system,it's eco smart. This means it makes intelligent decisions about when it provides and stores electricity based on how much energy you use,how much you generate with your solar and the electricity tariff you use. Libbi is smart...libbi seamlessly connects to your existing myenergi devices.

Why should you buy a myenergi Libbi battery storage system?
The MyEnergi battery storage system keeps hold of excess energy during the day and distributes it at night. This helps to reduce your energy bills and reduce reliance on the grid. Additionally,the MyEnergi Libbi is known for its sleek design,high efficiency,and durability,making it a smart investment for any eco-conscious homeowner.

How does myenergi Libbi work?
Remote Access- myenergi app allows you to access and control your libbi from anywhere in the world. Live displays allow you to monitor your imported and exported electricity,all in one place. Modular Storage By Design - Each battery module stores 5kWh of electricity. Combining four together provides up to 20kWh of storage.

Where are myenergi Libbi batteries made?
The MyEnergi Libbi batteries are made in the United Kingdom. The company is deeply rooted in its commitment to local manufacturing,believing that it not only ensures high-quality production standards but also significantly reduces the carbon footprint associated with shipping products from overseas.

My daily household consumption is often around 25kwh so I should burn through all the stored charge in Libbi by the end of the day. The problem is that I don"t. Libbi only ever seems to discharge a small proportion of the current household energy draw (somewhere around 20%) so I never make use of the full battery storage.

4 · Our Story . We innovate and manufacture affordable, pioneering technology for our customers.
