Map of Pitcairn Islands. The history of the Pitcairn Islands begins with the colonization of the islands by Polynesians in the 11th century. Polynesian people established a culture that flourished for four centuries and then vanished. They lived on Pitcairn and Henderson Islands, and on Mangareva Island 540 kilometres (340 mi) to the northwest, for about 400 years.

Pitcairn: Energy intensity: how much energy does it use per unit of GDP? Click to open interactive version. Energy is a large contributor to CO 2 - the burning of fossil fuels accounts for around three-quarters of global greenhouse gas emissions. So, reducing energy consumption can inevitably help to reduce emissions.

Pitcairn Island, Sept. 3, 1831. ... there was no energy left, and much of the island reverted to natural bush. In 1868, some of the Norfolk Island settlers, including old John Buffett, who was to live to the ripe old age of 93, visited Pitcairn and urged their relatives to rejoin the now wealthier community. But nothing happened except that ...
