POLYTECH breast implants are filled with special silicone gels approved for long-term implantation. These gels are cohesive and uniquely cross-linked, allowing the gel to remain in the shell, even in the chance of a rupture. It also makes our breast implants form-stable - if you change the form with moderate pressure, they will return to their ...

The Pylontech US5000C is an advanced lithium-ion battery offering 4.8kWh of energy storage, designed for optimal performance in solar and off-grid systems. This new version boasts a superior C rate, improving charge and discharge times. For example, at 1C, the battery fully discharges in 1 hour, while at 0.5C, it disch

The OFV-5000 controller is designed to accept a choice of signal processing modules, each optimized for different frequency, velocity or displacement performance. Each module is therefore tuned for different measurement tasks by making the best use of the vibration information in the Doppler signal obtained by the sensor head. Various analog ...
