Pv mate solar immersion controller Iceland

SolarImmersion monitors the PV production with a single clip on sensor and divert the surplus power for water heating, underfloor heating, battery charging etc.

It is new and unused only taken out of the box. It monitors when you are not using much solar power and heats the water when not much is being used so you get free hot water. I will sell a bit less than others on eBay which ...

Device to add to your solar PV installation which maximises your use of generated electricity. It controls your immersion heater, automatically adjusting the power going into your hot-water tank so as to use up excess power from the solar panels.

The SOLiC 200 automatically converts energy generated by your existing PV panels into hot water by diverting excess solar power to the immersion heater before it"s exported to the national grid. Simple to use and maintenance free, ...

Solar splitter is easy to install next to the hot water heater. I installed the measuring coil on the phase wire, but then the arrow on the coil is not in the right direction. If more than 300W is returned, the PV mate switches on the boiler.

This cutting-edge device empowers you to make the most of your solar panel system by redirecting excess electricity to your water heater, saving you money while reducing your carbon footprint. The PVMate Solar Immersion Diverter is designed to seamlessly integrate with your existing solar photovoltaic (PV) system.

SolarImmersion is an intelligent surplus power control system for your PV system. It diverts surplus power which would normally be exported to the grid. When the unit is connected to an immersion heater, it could provide free hot water from the surplus power. SolarImmersion - ...

It is new and unused only taken out of the box. It monitors when you are not using much solar power and heats the water when not much is being used so you get free hot water. I will sell a bit less than others on eBay which are £100 new.</p>
