San Francisco approved the RACLAN Box to help e-bike shop owners comply with new e-bike safety ordinances. The San Francisco Fire Code requires a fire barrier or battery cabinet when charging five or more battery packs -- a common occurrence in a place like a bike shop.. As an approved device, the RACLAN Box satisfies this requirement.

In addition, the RACLAN Box provides an important safety solution for handling lithium batteries and helps companies to make their transport processes safer. If you are looking for a reliable and safe transport solution for lithium batteries, the RACLAN Box from BOXLAB Services and FISACON is an excellent choice.
