The ML is compact, robust and incredibly reliable. Constructed with world-class LiFeP04 cathode materials, it"s extremely effective in a wide temperature range. The small volume and high charge/discharge rate offer stability and energy density.

SEC understands the special needs of large-capacity energy storage. By introducing vented catalysts to our 2 Volt Gel and AGM batteries, we were the first battery manufacturers to increase life and decrease float charge requirements. The innovation continues with new high-capacity designs, manufactured to meet European ISO standards.

Asia-based battery producers set to profit . With the global market for energy storage in the telecom sector expected to grow 10.7% in 2017, it will be interesting to see which country can produce Telecom batteries for the most competitive rate and take hold of this sector.. It"s rumoured that nationalism could render the industry unrewarding for some with several big ...

Although we have one of the largest range of independently branded energy storage solutions in the market, our 1040-plus models of industrial batteries and solar panels are not enough. We are adding more products to our CELLYTE ...

The SEC Microlyte MP series of VRLA monoblocs are a classic top terminal range of AGM batteries. They were designed as a cost effective but reliable solution for many uses, engineered with lead calcium plates to give them a triple benefit.

Dependable power in any weather condition. SEC knows that the open water is no place for failure. Captains need absolute reliability. Good batteries will crank the engine every time, but great deep-cycle marine batteries are those manufactured for power and safety.That means high energy density, post seals which won"t leak and explosion-proof vents.

The Microlyte MP is a range of valve regulated AGM batteries and is available in a wide range of industry standard sizes. This mainstream range still features SEC reliablity, but is suitable for all general standby applications at the more cost sensitive end of the market.

SEC industrial batteries provide rugged power you can rely on in harsh and demanding conditions . Enquire. Keep oil and gas projects flowing with dependable energy storage. Oil and gas extraction provides an

immense supply of power that is crucial to our global energy mix. But the processing and exploration required to extract these resources ...

While they haven"t done so yet, the purchase of low-carbon battery storage being approved for the first time speaks to a measure of commitment that will relieve many in the industry. At SEC we know the benefits of energy storage go beyond the environment.

When the power goes out, the lights need to stay on - and if you"ve chosen the right battery, they will. SEC are globally renowned battery manufacturers. We make long-lasting Lithium-Ion, VRLA and AGM batteries that are vibration and shock resistant. Our batteries are suited to emergency vehicles and safety equipment.

The SEC Cellyte TLG series of VRLA Gel monoblocs builds on the Cellyte TLA platform utilising the same classic top terminal construction, designed for when a cost effective but reliable solution is required.

SEC is looking for an exceptional Operations Director to take on this senior role in our Hong Kong head office. You will work closely with our Group CEO to supplement the sourcing, manufacture, and assembly of our extensive line of innovative industrial batteries.
