Founded in 2016 and headquartered in Houston, Texas, SEG Solar is an internationally recognized Tier 1 US manufacturer with a fully integrated supply chain for the production of high-quality solar modules. Your privacy is very important for us. When you visit our website, please agree to the use of all cookies.

So far, all the panels seem to be manufactured overseas: SEG Solar operates facilities in Vietnam, Cambodia, China and Thailand. The factory in Houston, Texas, is scheduled to launch in 2024. Compared to industry giants, SEG Solar is a small brand. In 2024, the company expects to expand their global PV module capacity to over 5.5GW.
