Selian energy Timor-Leste

Is there a market for roof-top solar energy systems in Timor-Leste?
Australia's Market Development Facility (MDF) and ITP Renewables conducted an assessment of the potential market for roof-top solar energy systems in Timor-Leste.

Is Timor-Leste a good country for solar energy?
Timor-Leste has a high-quality solar resource. The global horizontal irradiance in Dili is higher than on the east coast of Australia,where the solar market is mature and installation costs are higher. The cost of electricity in Timor-Leste for commercial and industrial consumers is high compared to ASEAN countries.

Does Timor-Leste have a demand for solar?
3 MDF survey on understanding demand for solar in Dili,Timor-Leste. Timor-Leste's rooftop PV solar industry is new and undeveloped. Limited availability of maintenance and spare parts inhibits some businesses from switching to solar.

Does Timor-Leste have electricity?
Timor-Leste has rapidly expanded electricity access to more than 83 per cent of the populationbut the country has yet to achieve energy security.1 Consumer costs,even with government subsidy,remain high and outages are common. In addition,most of Timor-Leste's electricity is generated through costly and polluting diesel generators.

What does a solar technician do in Timor-Leste?
Technicians in Timor-Leste have experience in small-scale,off-grid solar energy systems. Commercial or industrial scale installations are more complex and appropriate technical capacity is scarce.

Why did Timor-Leste lose electricity?
Most of the energy infrastructure that existed when Timor-Leste was part of Indonesia was destroyed during the violent outbreaks of 1999. At the time of independence in 2002,electricity access was estimated to be just 24 % of the population .
