# Serbia hv lithium battery

Is a proposed lithium mine in Serbia a threat to the environment?
A proposed lithium mine in Serbia is spurring protests over its potential impact on the environment. The mineral is in high demand because it's crucial for the batteries that run electric vehicles.

Why are people protesting a lithium mine in Serbia?
Thousands filled the streets of the Serbian capital Belgrade on Saturday to protest plans to mine one of Europe's largest deposits of lithium. Lithium is a crucial material for electric car batteries. STEVE INSKEEP,HOST: Think of this as a NIMBY story - Not In My Backyard.

Who makes lithium batteries in Europe?
They included Mercedes-Benz and Stellantis, who between them account for almost a quarter of all car sales in Europe. Representatives of lithium battery-makers also looked on as Serbia and the EU signed an agreement to establish a "strategic partnership on sustainable raw materials, battery production chains and electric vehicles".

Will Serbia meet Europe's lithium demand?
The Serbian government said it aims to meet at least 20%of Europe's lithium demand. For Europe's green transformation,the prospect of a huge lithium supply in the heart of the continent would be a huge relief. Most of the lithium Europe uses currently comes from Asia and South America.

Will Serbia become the first European country with lithium?
Maros Sefcovic said that would mean Serbia would become the first European country with "the whole value chain from lithium down to the electric vehicles built here in Serbia". Opposition parties remain unconvinced by the president's environmental guarantees. They never believed the lithium mine had been scrapped for good.

Will Serbia's 'lithium deal' be a green Boon?
Serbia's "lithium deal" is coming back as part of an initiative that officials in Brussels,Belgrade and Berlin hope will be a huge green boonfor the continent. A rather sudden and under-the-radar meeting took place in Serbia's capital last week.

As the only non-EU country with one of the largest lithium reserves in Europe, many have argued that Serbia was chosen to be sacrificed for the benefits of the EU battery ...

The EU and Serbia are set to sign a deal over the supply of battery materials, the German government said Wednesday, a day after Belgrade allowed work to resume at a disputed lithium mining project. Lithium is a strategically valuable metal crucial for making electric vehicle batteries and is key to helping Germany"s flagship automotive ...

Serbia"s "lithium deal" is coming back as part of an initiative that officials in Brussels, Belgrade and Berlin hope will be a huge green boon for the continent.

Two years after plans to exploit Serbia"s lithium seemed to have been permanently shelved, the issue is back on the table. To get their hands on the precious metal, Germany and the EU are willing to turn a blind eye to Aleksandar Vucic"s abuses.

Carmakers will need ever more lithium for batteries, as the transition to zero-emission vehicles accelerates - and Rio Tinto"s Jadar project could provide as much as nine-tenths of Europe"s ...

Thousands filled the streets of the Serbian capital Belgrade on Saturday to protest plans to mine one of Europe"s largest deposits of lithium. Lithium is a crucial material ...

As the EU races to secure lithium for its green transition, Serbia emerges as its key partner, securing economic benefits at a significant environmental and social cost. As Belgrade aligns more closely with Brussels and Berlin, critiques of its democratic backsliding fade, giving rise to a "greener" stabilitocracy.

Belgrade and the European Union signed a deal on Friday to give the EU access to raw materials mined in Serbia and strengthen their ties on production of sustainable raw materials, battery ...

As the EU races to secure lithium for its green transition, Serbia emerges as its key partner, securing economic benefits at a significant environmental and social cost. As ...

This would put Serbia on the map as far as lithium mining and refining goes. It would also give Serbia more leverage over the EU. However, Vuk Vuksanovic, noted: "Interdependence goes both ways.
