Smart meter solar Aruba

Why is NV Elmar replacing its meter with smart meter?
To standardize and to offer more services to the customer,N.V. Elmar is in the process of replacing all the of its meters with smart meters. With a smart meter the data can be read accurately and without the need to send a person to each house. Data is collected to ensure that reliable power of the best quality is delivered to each house.

What is a smart meter infrastructure?
A smart meter infrastructure also offers new services still to be introducedsuch as dynamic billing and Time of Use. Customers on a bi-weekly payroll (quincena) have the option to pay for electricity every 2 weeks. Time of Use is a service that makes it possible to introduce day-and-night tariff,where the electricity at night is cheaper.
