Smart sun power Eritrea

Does Eritrea have solar power?
Eritrea's weather, characterized by long sunny days throughout the year, makes it suitable for harnessing solar power. Data from the wind and solar monitoring stations installed in many parts of Eritrea show that the country has a great potential, around 6 kwh/m2 of solar energy.

Does Eritrea have a solar farm?
Eritrea is lagging far behind in the electrification of its territory and is now turning to renewable energy. The government has launched the country's first solar farm,a 30-MW facility 30 km from the capital,Asmara.

What are the benefits of solar energy in Eritrea?
The government of Eritrea has been making efforts to promote the use of alternative sources of energy,especially solar energy,to mitigate the problems associated with the use of fossil fuel. A major benefit of solar energy is that it does not pollute the environment and saves money in the long runeven if its installation cost is quite high.

Where is Eritrea's first solar plant?
The government of Eritrea has received a $49.92 million grant from the African Development Bank to fund a 30 MW photovoltaic plant in the town of Dekemhare,40 km southeast of the capital Asmara. It will be the country's first large-scale solar plant.

Why should Eritrea invest in a solar plant?
This initiative aims to address the energy needs of Eritrea while promoting sustainability and reducing carbon emissions. The solar plant is anticipated to contribute to the nation's energy independence and support its commitment to renewable energy development.

How many solar powered streetlights are there in Asmara?
As part of its efforts to promote the use of alternative sources of energy,the MEM built in April 2018 a photovoltaic plant east of Asmara. The plant generates an average of 11- thousand kilowatt hours of electricity per day. Moreover,in Asmara,more than 400solar powered streetlights,covering a distance of 13 kilometers,have been installed.

Smart Sun Energy, a name synonymous with excellence and innovation, is proud to celebrate 30 years of industry leadership. With an illustrious history in Inverters, Batteries, UPS solutions, and a legacy of reliability, we are embarking on an exciting new chapter in sustainable energy as we venture into Solar PhotoVoltaic Systems integration.
