# Solar panel for business use Somalia

As such, a 76 KVA Hybrid solar systems with a capacity of 35% fuel saving or 120 liters of diesel daily was installed in the Office of Prime Minister in Villa Somalia. This installation sufficiently demonstrated how solar energy can be used to power public offices with cheap, sustainable and clean energy.

In Somalia, the World Bank estimates that 11 million people have no access to electricity. Diesel-powered generators are the primary source of some of the world"s most expensive energy, at around $1 per kilowatt-hour. A solar power plant has been established on the edge of the capital Mogadishu, bringing down electricity costs.

13 February 2023, Mogadishu - The United Nations Development Programme (UNDP) and Federal Government of Somalia launched today the Somalia project of the Africa Minigrids Program (AMP) to increase access to electricity and bring new development opportunities to rural communities while contributing to putting the country on a sustainable development path.
