An estimated 9.4 million people in South Sudan, including 4.9 million children and over 300,000 refugees, mostly driven south from the Sudan conflict, needed humanitarian assistance.

A charge controller in an off-grid solar system also prevents reverse current from batteries to solar panels during overnight or cloudy days. Depending on its type, it can improve system efficiency and optimize power harvest from solar panels. Furthermore, a charge controller typically includes monitoring features that allow system parameters such as current, voltage, and energy to be ...
