Speicher system Albania

What is the capacity of a pumped storage station in Albania?
The capacity is estimated at 800 MW to 1.6 GW. The facility would be connected to the reservoir of the existing Moglica hydropower plant. Norway-based Statkraft,a major investor in hydropower in Albania,agreed with the country's government to launch a project for a pumped storage station,Monitor reported.

Does Albania have a hydropower plant?
Hydropower makes up almost the entire domestic output in Albania,which helps balancing to a point,but it has no pumped storage hydropower plants. Furthermore,the country is exposed to drought and often turns to emergency imports.

Will Albania build its first lithium ion battery plant?
Chief Executive Officer Bruno Papaj said the firm signed a memorandum of understanding with an Indian investor on the construction of Albania's first lithium ion battery plant. The facility is planned to come online within two years, with 100 MW in annual capacity.

What is the potential capacity of a pumped hydroelectric plant in Albania?
The Albanian government and Statkraft,which also operates wind,solar and gas-fired power plants,signed an agreement for the expansion of the concession with a pumped storage hydroelectric plant. Preliminary studies showed a potential capacity of 800 MW to 1.6 MW.

What is Voltalia doing in Albania?
Voltalia has started doing business in Albania in 2018 with the unsuccessful participation in the first solar tender organized by the Ministry of Infrastructure and Energy of the Republic of Albania ("MIE"). Despite this result,Voltalia has demonstrate great interest in the construction of 2.5 MW FiT-solar PV projects.

Is agrisolar a viable solution for a growing rural economy in Albania?
About 20% of Albania GDP relies on agriculture that employs about 60% of the population (as of 2020). Hence,agrisolar (and agrivoltaic) projects are among the most effective solutionfor a growing rural economy.
