Terra power solutions Bahamas

Levesque leads this nuclear innovation company in the pursuit of next-generation nuclear energy solutions and oversees TerraPower"s new venture into therapeutic medical isotopes. His proven track record in scoping, planning and implementing complex projects began with his service in the U.S. Nuclear Navy and features more than 30 years of ...

The Natrium technology will use the high-temperature heat from the reactor to power a molten salt storage system that can retain tremendous amounts of energy, much greater than the energy stored in typical battery facilities. That energy can be used to power the grid at peak demand when weather and darkness hamper renewable output.
