Fisacon are the ones with the safe, colorful boxes for charging lithium batteries. They are also much more - future-oriented, certified, responsible, doers, lateral thinkers, forward thinkers, developers, security experts, future designers, patent masters and designers. Above all, they are the ones who listen - listen to you.

Charging Security & Fire Protection with the Raclan Battery Box - for use in domestic and commercial settings. Skip to content Scotstown, Co. Monaghan, Ireland +353 (0)47 89293. info@lithiumbatterybox . Facebook. Linkedin. HOME. ... Safe to use in enclosed spaces; Extingushing agent is washable; Environmentally friendly & biodegradable;

The LithiumSafe(TM) Battery Pocket Brandschutz für Batteriezellen Wir entwickeln und produzieren innovative Brandschutzsysteme für Lithium-Ionen-Batterieanwendungen in verschiedenen Branchen Zu Systemen

Feb 2022 - New website live, for more info about the LithiumSafe(TM) Battery Box. Do you like it? 4. Read more. April 4, 2022. Official launch of the LithiumSafe(TM) Battery Box. Jan 2022 - After years of development, testing and improving, we have officially launched our ...

Our Battery Box brings safety to the following markets: Waste & Recycling. Research & testing . Medical pharma. Aviation & aerospace . Audio visual entertainment. Automotive EV. E-bikes - micro mobility. Mining . Marine. Diving . Military defense +31 (0)10 261 3525 support@lithiumsafe

The LithiumSafe(TM) Battery Box can now be used inside aircraft. December 2022 - LithiumSafe(TM) Battery Box has passed EASA aviation testing. Do you like it? 7. Read more

Bat-Safe BAFBATSAFEXLS - XL LiPo Battery Charging Safe Box, Un-Painted ; Features: Fireproof double wall steel insulated box Flame arrestor with soot filter Fireproof wire way Easy opening lid with locking latch Charge and store up to a 4pc 6S 5000mAh equivalent (500Wh) safely inside the BAT-SAFE XLarge. ... Lipo-Lithium Battery Charging Safe ...

Effective Fire Containment: The cover securely contains the fire, allowing the battery pack to burn out completely without spreading. Thermal Insulation: The triple-layer construction effectively insulates against radiation heat, reducing the risk of surrounding flammable objects igniting and protecting people from burns. A battery fire reaching temperatures up to 1400°C is reduced to ...

LithiumSafe(TM) Battery Bags Lithium batteries, and devices carrying them, come in many different shapes, sizes, and energy capacities, each requiring tailored protection. At LithiumSafe(TM), we offer expert advice to

help you choose the correct safety storage solution for your specific application, ensuring maximum safety and reliability.

Watch the Battery Box in Action below. Note: The video shows a fire test carried out by an external, independent test laboratory. The model box used is the "XL" (LSBX0155) and the total capacity/energy of the battery pack is 7000 Wh (7 ...

Watch the Battery Box in Action below. Note: The video shows a fire test carried out by an external, independent test laboratory. The model box used is the "XL" (LSBX0155) and the total capacity/energy of the battery pack is 7000 Wh (7 kWh). Never before has a fire containment system been successfully tested to contain such a high energy load.

BAT-SAFE is a double-walled insulated steel box with a flame arrestor. Any battery within the specifications will be no fire hazard if charged or stored inside the BAT-SAFE. Specification: Charging space: 6.5*3.9*1.9 inch / 165*100*50mm Outer dimensions: 7.6*5*4.5 inch / 195*128*115mm Weight: 1.6lbs / 0.7kg

Official launch of the LithiumSafe(TM) Battery Box April 4, 2022. Aircraft Interiors EXPO 2022 May 8, 2022. Battery Box Website is now Live ... Keep Safe, The LithiumSafe team of Tailors & Engineers. Feb 2022 - New website live, for more info about the LithiumSafe(TM) Battery Box. Share. 4. Related posts. December 19, 2022. The LithiumSafe ...

The LithiumSafe(TM) Battery Box, for safely storing, charging and transporting Lithium ion batteries. The most intensively tested battery fire containment solution on the market, engineered to fight all thermal runaway problems

The Lithium Safety Store(TM) - The world"s premier lithium battery safety box with 4 advanced warning signals. Safe storage, unmatched peace of mind With over 1,000 spontaneous lithium battery fires reported every week, every captain and boat owner should responsibly store all lithium batteries on board.

If you"re worried about containing a lithium battery fire, you"ll need something made of metal. A safe would work but is probably overkill. A metal ammo can would be good. Ventilation isn"t necessary. That"s a holdover from old unsealed lead acid batteries where the discharging and charging process would build up flammable gas near the ...

The LithiumSafe(TM) Battery Box, for safely storing, charging and transporting Lithium ion batteries. The most intensively tested battery fire containment solution on the market, engineered to fight all thermal runaway problems . Go to ...

Rainer 12 October, 2024 Our new RACLAN SQUARE box on ships or in harsh conditions. Our new RACLAN SQUARE Box offers users who need lithium-ion batteries with a capacity of up to 3.5 kWh on ships or in harsh conditions such as: in forestry, on construction sites and in the defense service, want to load

and store safely, an unprecedented option.

After many requests from our aviation customers who are using our LithiumSafe(TM) Battery Bags, Gloves and Kits for safe handling of PED thermal runaway fires, we have succesfully performed aviation tests with our LithiumSafe(TM) Battery Box according to EASA standard CS 25.853. This means that the Box can now officially be used inside aircraft for safe ...

LithiumSafe(TM) Battery Bag Pocket (small electronics, spare cells up to 100 Wh) LithiumSafe(TM) Battery Bag 750 (e-bike batteries, up to 750 Wh) LithiumSafe(TM) Wall Mounted Emergency Kit; LithiumSafe(TM) Gloves; LithiumSafe(TM) Battery Box ; LithiumSafe(TM) EV Connector Cover +31 (0)180 20 11 42 support@lithiumsafe Ebweg 3C 2991LS Barendrecht ...

The Battery Box is the first Lithium battery fire containment box solution which is engineered to fight all thermal runaway problems. It is completely insulated with highly advanced insulation materials which can withstand a continues temperature of 1200 °C, peak temperatures of 1400 °C in minimal material thickness.

Looking for a simple and effective way to safely charge any battery containing lithium? Look no further than BAT-SAFE - the ultimate solution for anyone who values safety and peace of mind while charging their batteries (LIPO and LI-ION). If you"re into drones, FPV or RC, or using lipo batteries in other applications, you know that there"s always a risk of fire when charging.

This battery box is designed for lithium batteries and includes external battery ports for easy connection to your trolling motor or accessory without having to open the box. It also features dual integrated circuit breakers with 10 Amp and 60 Amp protection to prevent electrical damage.
