A new "state-of-the-art" 2MWh Cummins Genset generator, commissioned at Tonga Power Ltd"s power plant at Anana in Nuku"alofa, yesterday, 14 February, will help meet ...

The South Pacific island group is boosting renewable capacity by adding the Battery Energy Storage System (BESS) to its Popua Power Station. 5 MW battery with a storage capacity of 2.5 MWh. It will store renewable energy, meaning more wind and solar power can now be built across the island.

The system includes a 350kW solar plant and a 1003kW/1856kWh battery energy storage system, which will enable TPL to integrate renewable energy into its electricity grid and provide reliable power to customers.

The two Battery Energy Storage systems are deliverables of the Tonga Renewable Energy Project (TREP) located in two separate locations. The first BESS, which is for grid stabilization, is located at the Popua Power Station and the second BESS, which is for load shifting, is located right behind NEMO"s new operations facility in Matatoa, Tofoa.

A new "state-of-the-art" 2MWh Cummins Genset generator, commissioned at Tonga Power Ltd"s power plant at Anana in Nuku"alofa, yesterday, 14 February, will help meet peak demand on Tongatapu. The generator, worth about $1.038 million pa"anga, was commissioned by the Australian High Commissioner to Tonga, HE Rachael Moore.

A special event today marks the official opening of Tonga"s first ever large-scale Battery Energy Storage

Systems (BESS) by the Prime Minister Hon. Hu"akavameiliku. ...
