Unitech energy Ã…land

Who is Unitech Energy Group?
UNITECH Energy Group is a leading supplier of subsea connector and distribution systems, umbilicals, power cables and flying leads. We help connect energy in a reliable, safe and sustainable way within our core areas of subsea Oil & Gas and Floating Wind projects. Covering global projects from our offics in Norway, Singapore, Australia and USA.

What's new at Unitech?
UNITECH is in the process of building a new combined technical school,technology center and a state of the art complete test centerfor new dynamic cable systems including both mechanical and electrical testing and qualification. The UNITECH Power Cables Portfolio is based on years of studying the known failure mechanisms in the industry.

What is Unitech Stord?
Centerpiece of the UNITECH Stord facility in Norwayis a 100M NKr investment in a vertical bundling machine and separate extrusion line for the manufacture of HFL /EFL and Umbilicals. The quayside plant's deepwater access allows for loading and unloading of 1,000 ton carousels for umbilicals and cables in as little as three days.

Does Unitech offer single source solutions?
UNITECH offers Single Source Solutionsincluding configuration of flying leads with UNITECH MQC stab plates and connectors,and third party connectors. This has significant cost and project deployment advantages. For more information visit 'Single Source Solutions'.

Why should you choose Unitech?
UNITECH can also offer a unique test location and infrastructure due to the ownership of the former Hywind Demo - now UNITECH Zefyros - at the MetCentre of Norway. Zefyros serves as a most effective HUB for new floating wind turbines, subsea charging stations and other future energy platforms.

For more than 35 years UNITECH has developed state of the art and cost efficient hang offs, Quick ALR connectors and customized termination solutions for power cables based on the major success of our subsea connectors.

Unitech Energy provides power supplies, battery chargers and related products focusing on demanding applications where our customers will benefit from years of experience in the power supply business.
